IDP-2026 (Staff)

Introduction

For Employee

The Individual Development Plan is your personal roadmap for growth and development planning within your role at WHA. It also helps your supervisor or manager better support you in thriving at work through shared goal setting, reflection, and discussion.

Enter "N/A" in the box below to move to the next section.

Goal Setting

For Employee

Identify two measurable goals within the scope of your current role that align with team and position priorities.

Note: Your progress and performance against these goals—together with your ability to consistently meet current job expectations and demonstrate behaviors aligned with WHA values—will be evaluated as part of your pay increase assessment next spring.

Employee Answer

POSEY, BRITTANY LYNN 03/12/2026

Goal 1 — Intune / Autopilot Documentation Completion and Wiki Ownership

By December 31, 2026, I will finalize documentation of WHA's Intune and Autopilot environment and maintain Infrastructure wiki articles I own to support operational continuity and shared team knowledge.

Deliverables

The following Infrastructure wiki articles will be completed and published:

- Intune Portal Configuration
- Intune Applications
- Hardware Hash Recovery / Collection Procedure
- Autopilot Import Procedure
- Intune Device Recovery Procedure (Accidental Deletion)

Documentation content and structure will be reviewed collaboratively with my manager to ensure accuracy and usability.

Success Metrics

All documentation artifacts listed above are completed and published in the Infrastructure wiki; completion determined by manager sign-off.

The number of Infrastructure wiki articles assigned to me increases during the review period, reflecting increased ownership of applicable systems and documentation maintenance.

Existing and additional wiki articles assigned to me during the review period are maintained at ≥90% freshness, as reported by the Freshness Dashboard in the IT Wiki.

Goal 2 — SNF Lifecycle Procedure Documentation and Provisioning Accuracy

By December 31, 2026, I will document the account provisioning procedures associated with AD Account and Remote Setup tasks of the Staff Notification Form (SNF) status changes and implement a QA checklist report to measure and maintain provisioning accuracy.

Deliverables

Procedure wiki articles will be created/finalized and owned by me for the following SNF Status Change Types:

New Hire

Term

Change

Name Change

Return from Leave

A QA Checklist Report will be created and used weekly to verify completion and accuracy of required provisioning tasks for each SNF request.

Accuracy will be calculated as Tasks Completed Correctly / Total Tasks. Each task carries equal weight. Accuracy is calculated based on my scope of responsibility.

Success Metrics

> Procedure wiki articles for all five SNF Status Change Types are created or finalized, assigned to me, and maintained at ≥90% freshness.
>
> A QA Checklist Report is implemented and used weekly to track SNF tasks and calculate provisioning accuracy.
>
> Overall provisioning accuracy of ≥98% is maintained during the review period, based on the QA Checklist Reports.

Development

For Employee

OPTIONAL: This section focuses on optional personal development that you may aspire to. Enter "N/A" in the box below if you prefer to skip this question.

Is there anything you'd like to learn, create, or develop within the scope of your role in the coming year?

What support would make that possible?

Employee Answer

POSEY, BRITTANY LYNN 03/12/2026 Edited

I plan to pursue the Microsoft MD-102 certification in 2026 to strengthen my expertise in endpoint management and Intune administration.

This certification directly supports my responsibilities maintaining documentation for WHA's Intune and Autopilot environment and improving the reliability of device provisioning processes.

Additional support in the form of occasional study time during work hours when operational workload allows would help ensure successful completion.

Values in Practice

For Employee

WHA Values

• Service
• Diversity
• Integrity
• Excellence
• Teamwork
• Belonging
• Wellbeing

Which two WHA values will you focus on this year, and how will you practice these in your interactions? Please provide specific examples.

Employee Answer

POSEY, BRITTANY LYNN 03/12/2026 Edited

Excellence
I will practice Excellence by maintaining accurate infrastructure documentation and reliable operational procedures that improve the organization and consistency of our environment.

This includes maintaining my wiki articles at ≥90% freshness and achieving ≥98% provisioning accuracy for SNF lifecycle tasks through the QA checklist reporting process.

Teamwork
I will practice Teamwork by maintaining documentation and procedures that allow other team members to understand and support the systems I work on.

Clear infrastructure documentation and provisioning procedures help ensure shared knowledge across the team and reduce dependency on individual knowledge holders.

Motivators of Success

For Employee

Which two factors will motivate you the most to perform at your best this year?

Teamwork — collaborating with others to achieve shared goals

Autonomy — having independence in decision-making

Purpose — feeling connected to the organization's mission

Pay — earning a sustainable wage to support yourself and/or your family

Achievement — experiencing a sense of accomplishment from work well done

Growth — opportunities to learn, develop new skills, and build capacity

Employee Answer

POSEY, BRITTANY LYNN 03/12/2026 Edited

Pay
Performance-based compensation is a strong motivator for me. When expectations are clearly defined and measurable, I am highly driven to execute at a high level and deliver results that directly contribute value to the organization. Clear alignment between outcomes and compensation encourages focus, accountability, and consistent performance.

Achievement
I am motivated by completing structured work that improves the reliability and organization of the IT environment. Delivering measurable outcomes such as maintaining documentation freshness and achieving high provisioning accuracy provides a strong sense of accomplishment and forward momentum.

Resiliency & Well-Being

For Employee

Are there any challenges or pressures you anticipate at work this year that may affect your well-being?

What support from your supervisor or manager would be most helpful?

Employee Answer

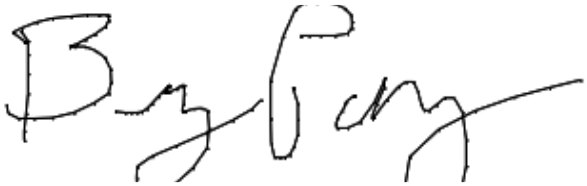

POSEY, BRITTANY LYNN 03/12/2026 Edited

Balancing documentation work with day-to-day operational responsibilities can sometimes create competing priorities. Maintaining structured time for focused work will help ensure steady progress toward maintaining wiki freshness and SNF provisioning accuracy.

Continued prioritization and alignment during one-on-one meetings will help ensure I remain focused on the highest-impact work supporting these goals.
